

Aluminium windows AWS 75.SI+

LOW-ENERGY

THERMAL TRANSMISSION:	U _w to 0,84 W/m²K
INSULATION:	PUR foam thermal insulation
DESIGN:	wing aligned with the frame
PROFILE THICKNESS:	75 mm
GLAZING:	double or triple glazing thermal transmission U _g : 0,5 to 1,1 W/m ² K sound insulation: 32 to 37 dB energy transmission g: 34 to 63 %
HARDWARE:	SCHÜCO
SEALING:	glazing seals in black are made of high quality and weather resistant materials
SURFACE TREATMENT:	powder-coated

WHY CHOOSE INLES?

GERMAN SCHÜCO QUALITY

Since 1996 we are working together with Schüco, the renowned German supplier of aluminium profiles.

STANDARDS AND CERTIFICATES ACQUIRED

Our products are properly certified and tested at reputable German institutes. Self-testing devices for air and water tightness also enable control over the individual characteristics of our products.

SAFE PURCHASING

We are one of the largest joinery manufacturers on a European scale with more than 60 years of tradition. The vast majority of our products are exported to the most demanding markets of the European Union under their own brand.

AFTERSALES SERVICES

Even after purchase, we will take care of your products. We feature an extensive network of service centres with specially trained service technicians for a professional performance of all the necessary tasks.
